NURSE PROTOCOL COMMITTEE

Dr. Butler presented the Committee recommendations report for the Nurse Protocol Committee. Dr. Summers seconded the Committee recommendations with amendments and it carried unanimously.

Other Business:

1. Regarding a letter from Kathy Foley concerning multiple delegating physicians. The Board discussed and agreed that the issue of delegating physicians within a multi-specialty clinic was acceptable.
2. Discussed the issue that the DEA sometimes issues DEA numbers to APRNs without a protocol agreement having been previously accepted by the Board.
3. Reviewed the issue of APRNs, who are not listed on our website, and how pharmacists would know if an APRN has a signed, but not accepted, protocol agreement, when filling the prescription. The list on our website only lists accepted protocols by the Board, not necessarily a signed protocol agreement.
4. The Board approved the Committee recommendation to approve the updated registration forms on the website.
5. Discussed the issue of pending APRN registrations, and approved the Committee recommendation of the “pending” letter to be mailed to the delegating physician and the APRN with a 60-day deadline to submit the appropriate amendments or documents, with a reminder to be sent after 30 days. If the delegating physician has not responded within the 60-day time period, the APRN registration file will be considered as withdrawn as no action has been taken within the specified time frame.
6. Approved the Committee recommendation that in the initial letter to a delegating physician, a 60-day deadline would be stated as the time limit to submit the appropriate amendments or documents, with a reminder to be sent after 30 days. If the delegating physician has not responded within the 60-day time period, the APRN registration file will be considered withdrawn.
7. Approved placing a “sample” Nurse Protocol Agreement on the website.
8. Mary Elizabeth Sykes – Procedures denied due to insufficient documentation of training for EKG assessment, intubation, central lines and chest tubes.

**MINUTES
JUNE 5-6, 2008**

9. Deborah Lutterman and Ellen Olson – Accepted with changes – additional documentation regarding proficiency need for bone marrow infusions.
10. Janet Ross – Accepted with a change to the agreement to indicate which physician out of a group practice would be the delegating physician.
